Cuminor 2			cation & division: P		l.	
	solve problems involving multiplication and division, using materials, arrays, repeated addition, mental methods, and multiplication and division facts, including problems in contexts	solve problems, including missing number problems, involving multiplication and division, including positive integer scaling problems and correspondence problems in which n objects are connected to m objects	solve problems involving multiplying and adding, including using the distributive law to multiply two digit numbers by one digit, integer scaling problems and harder correspondence problems such as n objects are connected to m objects	 solve problems involving multiplication and division including using their knowledge of factors and multiples, squares and cubes solve problems involving multiplication and division, including scaling by simple fractions and problems involving simple rates 	solve problems involving addition, subtraction, multiplication and division	solve one-step problems involving multiplication and division, by calculating the answer using concrete objects, pictorial representations and arrays with the support of the teacher
	Spring 2	Spring 1	Spring 1	Autumn 3 Spring 1	Autumn 2	Summer 1
1		Multiplic	ation & division: C		1	
					solve problems involving	use their knowledge of

		addition, subtraction, multiplication and division and a combination of these, including understanding the meaning of the equals sign	the order of operations to carry out calculations involving the four operations
		Spring 1	Autumn 2

Year R	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6			
Fractions, decimals, percentages									
Fractions: Recognise and write									
	recognise, find and name a half as one of two equal parts of an object, shape or quantity recognise, find and name a quarter as one of four equal parts of an object, shape or quantity	 recognise, find, name and write fractions 1, 1, 2 3 4 4 and 3 of a length, 4 shape, set of objects or quantity 	 count up and down in tenths; recognise that tenths arise from dividing an object into 10 equal parts and in dividing one-digit numbers or quantities by 10 recognise, find and write fractions of a discrete set of objects: unit fractions and non- unit fractions with small denominators recognise and use fractions as numbers: unit fractions and non- unit fractions with small denominators 	count up and down in hundredths; recognise that hundredths arise when dividing an object by one hundred and dividing tenths by ten.	 identify, name and write equivalent fractions of a given fraction, represented visually, including tenths and hundredths recognise mixed numbers and improper fractions and convert from one form to the other and write mathematical statements > 1 as a mixed number [for example, 2 + 5 4 = 6 = 1 1] 5 5 				
	Summer 2	Summer 1	Spring 3	Spring 4 Summer 1	Autumn 4				
			Fractions: Compare						
		Recognise the equivalence of 24	 recognise and show, using diagrams, equivalent 	 recognise and show, using diagrams, families of 	compare and order fractions whose denominators	use common factors to simplify fractions; use			

• and 1 • 2	fractions with small denominators compare and order unit fractions, and fractions with the same denominators	common equivalent fractions	are all multiples of the same number	common multiples to express fractions in the same denomination compare and order fractions, including fractions > 1
Summer 1	Spring 3	Spring 3	Autumn 4	Autumn 3
 write simple fractions for example, 1/2 of 6 = 3 	 add and subtract fractions with the same denominator within one whole [for example, 5 + 7 1 = 6] 7 7 	add and subtract fractions with the same denominator	add and subtract fractions with the same denominator and denominators that are multiples of the same number multiply proper fractions and mixed numbers by whole numbers, supported by materials and diagrams	 add and subtract fractions with different denominators and mixed numbers, using the concept of equivalent fractions multiply simple pairs of proper fractions, writing the answer in its simplest form [for example,1 x 1 = 1] 4 2 8 divide proper fractions by whole numbers [for example 1 ÷ 2 = 1] 3 6
Summer 1	Summer 1	Spring 3	Autumn 4 Spring 2	Autumn 3 Autumn 4

Fr	actions: Solve proble	ems
	• solve problems that involve all of the above Spring 3 Summer 1	solve problems involving increasingly harder fractions to calculate quantities, and fractions to divide quantities, including non-unit fractions where the answer is a whole number Spring 3
Decimal	s: Recognise, write, o	compare
		 recognise and write decimal equivalents of any number of tenths or hundredths recognise and write decimal numbers as fractions [for example, 0.71 = hundredths recognise and write decimal equivalents to 1, 1, 3 4 2 4 round decimals with one decimal place to the nearest whole number compare numbers with the same number of decimal places read and write decimal numbers as fractions [for example, 0.71 = hundred and use thousandths and decimal equivalents round decimals with two decimal places to the nearest whole number whole number whole number whole number

		up to two decimal places Spring 4 Summer 1	and to one decimal place • read, write, order and compare numbers with up to three decimal places Spring 3 Summer 3	Spring 3
Fractions	s, decimals and per		 recognise the per cent symbol (%) and understand that per cent relates to 'number of parts per hundred', and write percentages as a fraction with denominator 100, and as a decimal solve problems which require knowing percentage and decimal equivalents of 1,1,1,2,4 and 24555 those fractions with a denominator of a multiple of 10 or 25 	associate a fraction with division and calculate decimal fraction equivalents [for example, 0.375] for a simple fraction [for example, 3] 8 recall and use equivalences between simple fractions, decimals and percentages, including in different contexts

		Spring 3 Spring 4	Spring 3	Spring 3
